Important Financial Information

FACTS Financial	EMA (Step Up)
TRA's in-house financial system processes all non-scholarship payments. Setup is required at enrollment, and a current bank account or credit card must be kept on file.	This is your child's scholarship portal, where you approve tuition and fees at the start of the year and four additional times to release funds to the school. Step up covers about 80% of tuition and fees. The rest will come out of pocket.
