Philosophy of Family

We believe that families are ordained by God to fulfill His purpose and provide the model for church operation.

For married couples, singles, single parents and young and old alike, the church provides a family structure with order, affirmation, discipline and friendship.

We believe that marriage is a precious institution designed by God and exists between one man and one woman and according to scripture their home was designed to be the place where children are raised and nurtured.

We agree with the Nashville Statement.
